# Market Overview

# 21<sup>ST</sup> CENTURY

# Health & Wellness

2026

**The health and wellness industry in India is experiencing a massive shift from a luxury niche to a mainstream lifestyle essential, valued at approximately \$156 billion in 2024 and projected to reach \$259 billion by 2033.**

# Direct Selling

Direct selling is a business model where products or services are sold directly to consumers in a non-retail environment, such as at home, work, or online. This approach bypasses traditional middlemen like wholesalers and retail stores, allowing for a more personal sales experience through one-on-one demonstrations or social gatherings

Direct selling offers a flexible, low-cost path to entrepreneurship where you sell products directly to consumers away from traditional retail stores. In India, the industry is rapidly formalising under the Consumer Protection (Direct Selling) Rules, 2021
